# AUSTRALIAN STANDARD WHITE (ASW)

Australian Standard White (ASW) is a highly versatile, low protein white wheat representing excellent value for straight milling or blending purposes.

This multi-purpose wheat is used to produce Middle Eastern, Indian and Iranian-style flat breads, European style-breads and rolls, and Chinese steamed bread.

There are specific quality guidelines for ASW in terms of dough and end product testing

CORE CLASS CHARACTERISTICS\*

## GRAIN ATTRIBUTES

- Hard white wheat
- Low protein

## MILLING PERFORMANCE

- Highly versatile for straight milling or blending purposes

## QUALITY GUIDELINES

- Minimum dough and end product testing requirements

## END PRODUCT USE

- Range of breads including European breads and rolls, flat and steamed breads

\*Performance is indicative and typically reflective of optimum conditions.
