AUSTRALIAN WHITE WHEAT (AWW)

Australian White Wheat (AWW) is a new class introduced in 2021.

It represents value as a dry, clean, hard-grained white wheat with competitive milling performance and sound falling number.

AWW has minimum quality guidelines that include wheat and flour specifications (and do not extend to dough testing or to specific end products).

CORE CLASS CHARACTERISTICS*

GRAIN ATTRIBUTES

- Hard white wheat
- Sound falling number
- No specific protein

MILLING PERFORMANCE

- Competitive extraction rate
- Good flour colour

QUALITY GUIDELINES

- Minimum classification testing requirements for grain and flour
- No dough or specific end product testing requirements

END PRODUCT USE

- Typically suitable for general purpose requirements and for blending by flour millers

*Performance is indicative and typically reflective of optimum conditions.
